Well I can't believe that we still have these Brand New Viking Ranges.
I am going to give a little more information on each one so you can't help but buy
one or two.
and the colors.....WOW...They are beautiful.

I am also including some Lynx product that we got late last week and a few DCS
pieces that I think got missed.

Please remember that the Viking product has the full factory warranty on it.

If you have any question, please email me back.
Thanks again for accepting my newsletters,
