Not a lot new this week, but we have a lot or great products still

With all the turmoil in the world, we are seeing prices rise.

Luckly for you, we have been able to keep things somewhat in control.

Hopefully we will be able to do that going forward .

So if your world needs appliances now or in the near future, act now.

Let me put a package together of three items or more for an extra 5% off

Thanks again,

Robert Ehrig
